

GENERAL INFORMATION

The “Vehicle Rescue in the New Millennium” Train-The-Trainer event is open to anyone with no pre-requisites or qualifications required to attend. Call **713-502-8470** or **713-553-6279** to reserve your seat in class and to make payment arrangements. Seating is limited and your seat in class will be confirmed via email or fax when payment is received.

DATES – This 2-day training event will be held Sat/Sun April 24/25, 2010 in San Dimas, CA

LOCATION – The class location will be: Future Concepts, 675 West Terrace Dr, San Dimas, CA 91773 from 0800-1700

COST – The cost to attend this 2-day event is \$250 per person. This fee will include 2 days of training and all training materials. Lunch at the class site will be provided at no cost each day. Due to the limited space available in this class, and the cost to duplicate and package all materials, the \$250 fee will NOT be refundable.

PAYMENT – Payment is required prior to attending class. Payment can be made by mailing a check to **Scene Of The Accident, 4311 Shady River, Missouri City, TX 77459** or by credit card by calling us at 713-502-8470. You may Fax your registration form to 281-754-4259 or register on-line at: www.sceneoftheaccident.org (click on “Schedule” tab). Confirmation will be faxed or emailed when payment is received. Due to the cost of set-up, printing and duplication, there will be no refunds.

ACCOMODATIONS – We have made arrangements for special pricing at Four Points Sheraton, 11960 Foothill Blvd, Rancho Cucamonga, CA 91739. You will be responsible for making your own Hotel reservations and for the cost of your hotel room. For reservations contact the hotel by phone at (909) 204-6100. Please mention **Scene Of The Accident**, when making reservations to receive discount.

ATTIRE - Comfortable attire should be worn. This is a learning experience with many hours in the classroom, so please dress accordingly. You will need Proper Protective Equipment, PPE (Turnouts, Boots, Gloves, Safety Glasses, and Helmet) to participate in the Hands-On Evolutions.

CAMERAS AND RECORDING DEVICES – We encourage you to bring your cameras, camcorders and recording devices. All information provided by Scene Of The Accident is meant to be shared with others.

SPECIAL NEEDS - Please let us know if you have any special needs so we can make arrangements to accommodate them.

Hands-on	Day 2. 1230-1630	*PPE	Live Scenarios	4.0
Wrap-Up	Day 2. 1630-1700		Evaluations & Certificates	0.5

This course is designed to provide you with the information you will need to keep yourself and others safe while working around today's "High-Tech" vehicles. As Automakers produce vehicles that are safer for their occupants, little is being done to inform or protect the First Responder from these new technologies at the accident scene. Our training program addresses these issues and provides the information you need to ensure the safety of everyone involved.

This is a Train-The-Trainer course and you will receive all of the information and training materials needed to train others in your department and other departments when you return home. You will also receive all course updates and future programs at no additional cost.

Our goal is to ensure that no life is lost nor injury sustained due to a lack of up-to-date training.

SCENE OF THE ACCIDENT, Inc.

Re: Vehicle Rescue in the New Millennium

Scene Of The Accident is a non-profit organization dedicated to saving lives through training. We have spent the last 8 years working with the Emergency Services and the Automotive Industry to develop a comprehensive course that provides attendees with the information, materials, and hands-on skills required to train others. Our new program provides you with the most up-to-date information available anywhere.

Our newly revised "Vehicle Rescue in the New Millennium" course covers all of the requirements set forth in NFPA 1670 Chapter 8 for Vehicle and Machinery Rescue, Awareness, Operations, and Technician levels. It also covers new vehicle designs and materials, along with safety procedures for working around hybrid and alternative fuels vehicles, and mitigating hazards at late model vehicle fires. Our courses can be used as stand-alone programs for your department, or as an update to your existing training programs.

All attendees will receive an Instructors Manual, PowerPoint presentations and training videos on DVD, along with a certificate from Scene Of The Accident as a Vehicle Rescue Instructor. Each participant will also become a member of our Accident Scene Safety Trainers Network and receive access to the Instructor Resources section of our website which contains course updates along with all of our new courses as soon as they are available for no additional cost.

This 2-day event features 1 day of classroom training and 1 day of hands-on extrication training. The hands-on day of training affords all participants the opportunity to practice the new procedures learned in the classroom session to overcome the new and additional challenges faced with today's high-tech vehicles. Attendees can choose to participate in the hands-on evolutions or use this time to take pictures and video.

We have included all of the information and details on the Train-The-Trainer event along with a registration form and instructions in this packet. Please feel free to contact us if you have any additional questions or require any additional information.
